**POOR**  
customer service?

Don't lose  
another sale  
because your  
vendor couldn't  
**COME THROUGH.**

**CALL**  
Alfa Transformer  
today.

## Top 5 Reasons To Repair Your Transformer

**5. DISCOVER POTENTIAL PROBLEMS** - Alfa's failure analysis can help determine if any problems exist in your electrical system that could cause additional failures.

**4. PREVENT FUTURE PROBLEMS** - In many cases, Alfa can redesign your transformer for greater short-circuit strength and efficiency.

**3. PREVENT A HEADACHE!** - You know your transformer fits in the existing space. Finding an exact replacement is usually impossible. Save yourself a headache by repairing the transformer that fits.

**2. PREVENT UNNECESSARY STRESS!** - "An ounce of prevention is worth a pound of cure". Repairing your transformer to keep on hand as a spare is a great way to minimize downtime and your stress.

**1. SAVE MONEY!** - Repairs of failed transformers can offer substantial savings over purchasing a new transformer and the warranty is the same as new!
